“You treat a disease, you win, you lose. You treat a person, I guarantee you, you'll win, no matter what the outcome.”

-Patch Adams

Services

Each of our physicians are teamed up with an experienced medical assistant, allowing for the same procedures and diagnostics commonly performed in the doctor's office, to be brought straight to our patients. Below are just a few examples of the services we can provide on site, at the time of your visit.

- Immunizations
- Electro Cardiogram (EKG)
- Laboratory specimen collection
- Joint injections
- Urinalysis & culture
- Ear wax removal
- Cryosurgery
- Cognitive ability assessment
- Form 602 completion

Technology

Our HomeCare Physicians Division is committed to offering cutting edge technology, allowing for greater access to your healthcare records in order to streamline coordination of care between your providers.

With our system of fully HIPAA compliant electronic medical records, PC based EKG, and electronic laboratory ordering, information regarding your health can be securely delivered on demand from wherever you or your physician may require.

Technology designed to provide faster and more informative care, is now available for your doctor to better assist your unique healthcare needs.
